## A MESSAGE FROM THE PRESIDENT

### Dear Members,

I'm writing this from the SHAPE America conference where Vice President Shelley Holden and I are hosting a NAKHE booth at the exhibitor's hall. It is great to see so many people interested in professional development, and it is our goal to raise awareness of what our organization does and how we can support faculty in higher education.

As some of you may have already heard, after 12 years of service, our Executive Director Carrie Sampson Moore will be stepping down from her role at the end of June. While I am so sad to hear this news, I am also so thankful for the tremendous work Carrie has done over the years. I know all of us who have served in leadership roles in NAKHE relied heavily on her knowledge, skills, and sage advice.

With Carrie's resignation, the Executive Committee have been meeting to re-evaluate the roles and responsibilities of the Executive Director position, as there may be crossover with Webmaster and Convention Manager roles. We will be presenting our findings and suggestions to the Board of

Directors in the near future. More details will be forthcoming via email to the NAKHE membership. What a great reminder to make sure that your membership is active!

Last, just a reminder that registration for our summer Leader Development Workshop in Jacksonville, FL as well as a call proposals for our 2024 annual conference in Phoenix, AZ is now available on our website.

**Meet our NAKHE New Member of the month: Jamie Gilbert Mikell**

**Jamie Gilbert Mikell**

**Assistant Professor** | Health Education, Motor Development, Physical Education

**Affiliation: Athens State University; Athens, Alabama**

**Why are you a NAKHE member?** The decision to join NAKHE after beginning a tenure-track position was easy. My mentors at West Virginia University spoke highly of the organization, and I was eager to join to continue to connect with fellow professionals. My membership in NAKHE has exceeded my expectations. I have made professional connections, learned, achieved, and made friendships in the kinesiology field that I look forward to continuing.
